

## NASHS SAP

The NASHS Sustainability Action Plan (SAP) was started to create a more sustainable future for the school and the global community.

## What is Sustainability?

Sustainability is the ability to meet the needs of the present without compromising the ability of future generations to meet their own needs.

We need to be more actively sustainable at NASHS to:

- Educate the school community about sustainability.
- Be responsible global citizens.

Be Sustainable!*

## Composting

Composting is a way of decomposing natural matter such as food scraps, cardboard and paper. Composting is also an easy way to eliminate food scraps going to landfill. Compost is a high source of nutrients for gardens and also helps the food web thrive.

In term 3 2017 the NASHS year 7 councillors visited Oranje Tractor. They were taken on a tour of Oranje Tractor's organic gardens by Murray Gomm, the co-owner of Oranje Tractor. Murray showed them the importance of composting and how easy it is to start doing it.

*Above- Murray Gomm showing NASHS year 7 councillors some of his compost.*

# Reduce, Reuse, Recycle!

**Recycling** is **reusing** our resources, over and over again, so we can **reduce** the amount of natural material that is taken from the environment, and the rubbish thrown back into landfill.

There are many ways to recycle, and to prevent destroying our environment, one very easy tactic is to reuse.

You can reuse by buying second hand, selling or donating your clothes, furniture and unwanted goods to charities across Australia..

The 2017 year 7 councillors, visited Cleanaway at the rubbish tip in Albany. They looked at Albany's current landfill site, the recycling plant and even some glass that was turned into sand!

*Above-a pile of glass bottles at Cleanaway, the rubbish tip in Albany, on Hanrahan Rd.*

## NASHS *Year 7* SUSTANABILITY *PROGRAM*

The year seven sustainability program was aimed at educating the NASHS year 7 councillors on sustainability and what we can all do to help as individuals to benefit our society and our environment.

*Above- NASHS Yr. 7 councillors at Albany TAFE's sustainable garden.*

The main aim of the NASHS 2017 year 7 sustainability program was to:

- To educate year seven councillor on sustainability.
- Encourage leadership skills

## 2018 Sustainability

### AIMS

- Green Classrooms
- Soft Plastic Recycling
- Recycling Bins in Yard
- The 'Last Straw' Campaign
- Continue to Recycle
